NATIONAL ACADEMY OF SCIENCES  
Committee on International Security and Arms Control

December 6, 1985 DEC 11 1985

Dear Josh:

I am acutely embarrassed that, for various reasons, the draft proposal for funding for our biological weapons activity was not sent to you as I had thought. Apparently it was held up pending some budgetary considerations.

Could you please look at the draft now and let me know your views as to proposal content and possible target foundations. \*

Thank you and sorry for the confusion.

Sincerely,

Victor Rabinowitch

P.S. I will be abroad next week, but Lynn will be available if you wish to call in any information or get any help.

12/13/85

The proposal is fine. It would be strengthened if we had appreciation from Velikobor about our joint mtg. in Moscow.

\* The usual & obvious. John Steinbrenner can advise your strategy with MacArthur F. net.

If you get partial funding from MacA. I would personally try 1 or 2 other sources.  
Josh.
